## EDUCATION

### Carnegie Mellon University

B.S. in Computer Science and Information Systems

GPA: 3.77/4.0, Dean's List

**Relevant Coursework:** Data Structures and Algorithms, Discrete Math, Linear Algebra, Software Design, Database Management

August 2025 – December 2028

Pittsburgh, PA

## EXPERIENCE

### Cognitive Tutoring Authoring Tools (CTAT)

Software Engineering Intern

January 2026 – Present

Pittsburgh, PA

- Designed and shipped 20+ features end-to-end for CTAT, a web-based intelligent tutoring system used in university research environments, using **Vue, JavaScript, HTML, and CSS**
- Improved robustness and accessibility for 1,000+ users by refactoring application logic for HTML lesson editor

### Carnegie Mellon University School of Computer Science

15-122 Teaching Assistant

January 2026 – Present

Pittsburgh, PA

- TA for 400+ students in data structures, algorithms, and correctness/safety proofs using C and C0
- Lead weekly precepts and hosted office hours to mentor students

### Carnegie Mellon University Housing

Resident Assistant

January 2026 – Present

Pittsburgh, PA

- Collaborated with 16-person RA staff to proactively mediate resident conflicts and mental health crises affecting 700+ students
- Executed emergency preparedness plans during high-stress situations, coordinating with emergency services and providing calm reassurance to affected residents

### Code Ninjas

Lead Sensei

May 2024 – August 2025

Katy, TX

- Led week-long intensive coding bootcamps for 40+ students ages 5–17, teaching JavaScript, HTML, and CSS from zero to a deployed personal web project
- Provided 1-on-1 weekly mentorship in web development and debugging, driving measurable improvements in student project completion and code quality

## PROJECTS

### Loom (Hacking4Humanity Top Finisher)

March 2026

- Selected for the **Gubernatorial Roundtable at the Governor's Residence** to discuss AI-driven safety and platform architecture with **First Lady Lori Shapiro** and PA state officials
- Built a production-ready **full-stack social media platform** designed to prevent AI web-scraping of art using **React/Vite frontend, Node.js/Express REST API backend, and MongoDB schemas** for users, posts, communities, and activity logs
- Developed a **Python AI/ML microservice** handling bot detection, content tagging, behavioral analysis, and personalized recommendations, improving both feed relevance and platform safety

### Minecraft Live

February 2026

- Developed a **real-time, full-body motion control system** for Minecraft using **Python and MediaPipe**, translating live pose landmarks and head orientation into low-latency hardware-level keyboard/mouse inputs via neural network inference
- Engineered a cross-platform **mobile companion controller** over async **WebSockets and UDP**, implementing signal processing algorithms for drift calibration and dead-zone filtering to ensure precise, stable input under real-world noise
- Designed a configurable state machine for input injection that handles complex in-game mechanics (sprint toggling, inventory management, interaction sequencing) with safety thresholds to prevent unintended actions

### Sparrow

August 2024

- Developed a **full-stack educational app** that teaches children Java through visual block coding and interactive lessons, using **MongoDB, React, and HTML/CSS**
- Designed character animations, customization systems, and site layout in Adobe Illustrator and Adobe After Effects, creating a cohesive and engaging visual identity
- Piloted the app with elementary and middle school students, synthesizing user feedback to iterate on accessibility features and improve comprehension outcomes

## SKILLS AND INTERESTS

**Languages:** Java, Python, C++, C#, JavaScript, TypeScript, HTML, CSS, SQL

**Frameworks & Libraries:** React, Node.js, Express, .NET, Vue, Vite, MediaPipe, OpenAI API, Three.js

**Tools and Platforms:** WebSockets, UDP, MongoDB, Git, GitHub, REST APIs, Figma, Adobe Illustrator, Adobe After Effects

**Certifications:** AWS Cloud Practitioner

**Awards:** Hacking4Humanity Top Finisher, CyFair Hackathon Winner, National Merit Finalist, AP Scholar with Distinction, UIL Texas 6A State Semifinalists for Girls Soccer, Texas High School Coaches Association Academic Elite All State, Scholastic Art and Writing National Gold Medal in Drawing and Illustration

**Interests:** Soccer (CMU Club Soccer Secretary), Futsal, Painting, Cooking, Teaching, Dancing, Drawing, Music
